The site is free from OWASP (and any other Known) vulnerabilities and is safe for hosting. The clearance for the above application is given taking into consideration that the OWASP (and any other Known) vulnerabilities do not exist in the application. Any unapproved changes to the web application will void the certificate.

Application Source Code Hash (MD5): 7957ca707a6294077d6de613c822f497

HOSTING PERMISSION :

I. Site may be considered safe for hosting with Read and Script Execute permission only

RECOMMENDATIONS :

- I. Web Server Audit certificate, web server and OS level hardening need to be in place for the production server before making the application live.
- II. Website audit should be done at least once a year or when there is any change in the application.
- III. No new web pages are to be added without proper security audit.
- IV. Server side issue should be taken care by hosting provider.
- V. Secure Sockets Layer (SSL) should be implemented on the main hosting URL (including sub-folders).
